# HEATHCOTE-OVERHILL CORPORATION

# **Purchase Application**

(Rev. 8/1/2021)

# **Preliminary Information**

This Application has been prepared primarily for (i) the purchase by individual(s) ("Purchaser") of the shares of Heathcote-Overhill Corporation (the "Corporation") and the signing of a Proprietary Lease relating to an apartment at 50 Popham Road, Scarsdale, NY 10583 (the "Building"), and (ii) the sale of such shares by individual(s) ("Seller"). If the Purchaser is a Trust or any other entity; or the Seller is an Estate, Trust or any other entity, the Purchaser's counsel, and/or the Seller's counsel, as applicable, should promptly contact the Corporation's counsel: Norman Himmelfarb, Esq., Himmelfarb & Sher LLP, 914-461-0255, ndh@himmelfarb-sher.com, to be certain that Purchaser, Seller and their respective counsel understand the additional documentation that will be required for Trusts, Estates or other entities. If the original Stock Certificate evidencing the shares of the Corporation to be sold, or the original signed Proprietary Lease are not available, Seller's counsel should promptly advise the Corporation's counsel so that he can advise Seller's counsel what additional documentation will be required. Not contacting the Corporation's counsel is likely to delay the closing.

Several matters for the Purchaser to note:

- 1. The Corporation has a strict "no pet" policy. No pets of any type owned by residents or any of their guests are permitted at any time in the Building or on the surrounding parking lot, patio or grass on the front, side or rear of the Building.
- 2. No person with diplomatic immunity may own or reside in any apartment in the Building.
- 3. Subletting the Apartment is only permitted with the prior written consent of the Board of Directors of the Corporation and is subject to Board approval, certain limitations and restrictions.
- 4. If the Purchaser works from home, the number of clients or customers, if any, who might enter the Building will be considered in the approval process.
- 5. If Purchaser intends to do any renovations to the Apartment, Purchaser should request a copy of the renovation application to understand the requirements

#### New NYS Law Requires Smoke Alarm Upgrades by April 1, 2019

Effective April 1, 2019, a new NY State law requires all <u>NEW</u> or <u>REPLACEMENT</u> smoke alarms in New York State to be powered by a 10-year, sealed, non-removable battery, or hardwired to the home.

# This does not affect your currently installed smoke alarms

# You <u>do not need to replace alarms</u> that are currently in your home or apartment - but any that you replace need to be 10-year battery powered or hardwired.

Important to note, smoke alarms have an estimated life of around 10 years before they become unreliable.

#### Breakdown of the new smoke alarm requirements

According to NYS Law 399-ccc: "It shall be unlawful for any person or entity to distribute, sell, offer for sale, or import any battery operated smoke detecting alarm device powered by a replaceable or removable battery not capable of powering such device for a minimum of ten years."

Homeowners and landlords must upgrade their smoke alarms before selling or renting homes and apartments in New York State.

While these 10-year smoke alarms have a larger upfront cost than traditional alarms powered by replaceable batteries (approximately \$20 per unit) the lack of yearly battery changes makes them cheaper over the life of the device.

As with ALL smoke alarms, manufactures recommends that the 10-year sealed smoke alarms still be tested at least twice each year using the button on the front of the unit to ensure they are working properly.

#### Some Frequently Asked Questions:

#### Do I need to replace the alarms I have installed already?

You are NOT required to immediately replace your current smoke detectors, but any that are replaced or added after April 1st are required to be 10-year battery powered or hardwired. After this date, traditional removable battery smoke alarms will be unavailable for purchase in NY State.

#### Are they more expensive than non-sealed alarms?

Up front? Yes. In the long term? No. Most 10-year sealed smoke alarms range in price from roughly \$20-\$30, making their initial investment higher than a nonsealed alarm, but non-sealed alarms require annual battery changes. The cost of these replacement batteries average \$38 over their 10-year life span, meaning they ultimately cost more than the sealed version.

#### Do they really last 10 years?

Yes, they do, the sealed lithium battery (included) will never have to be replaced throughout the life of the alarm, giving you a decade of peace of mind even in the event of a power outage.

#### Will I activate the alarm when I'm cooking something?

No. There are 10-year sealed alarms specifically designed for the kitchen with advanced sensors that can tell the difference between cooking smoke and real fire.

#### Why did the law change to require these upgrades?

The dangerous habit of disabling or removing smoke detectors after an accidental alarm while cooking is a major part of why this new legislation went into effect, so alarm

manufacturers considered this issue in the design of 10year sealed alarms. You are very likely to experience less nuisance alarms than you did with your traditional battery alarm.

#### Are 10-year sealed smoke alarms better than hard-wired smoke alarms?

There are advantages to both systems. Hard-wired smoke alarms tie into your home's wiring and require professional installation, but generally do not require battery changes unless they feature a backup battery. 10-year sealed battery only alarms are simple to install, and they work during a power failure. All smoke alarms have a life span of 10 years, sealed or non-sealed, and should be tested on a regular basis. When the battery wears out in a 10-year sealed alarm, the entire unit must be replaced, which helps prevent outdated units from staying in operation.

#### What about landlords and their rental properties?

10-year sealed alarms offer security and convenience to landlords, who are legally required by New York State to provide smoke detectors in their rental properties. The tamper-proof design of these alarms prevents tenants from removing the batteries due to nuisance alarms, or to use the batteries for another purpose. The 10-year lifespan of these lithium batteries means fewer changes and fewer equipment updates. Overall, there is a lesser chance of equipment failure in the event of a fire.
